Job Title: Intern – Distribution Standards
Location: Richmond, VA
Requisition Number: 13577BR

Job Summary:
This Intern will work with the Distribution Standards group within the System Reliability organization at the corporate office in Richmond, VA. The successful candidate will assist with the following:

- Provide assistance in general engineering calculations such as estimating residential loading on distribution transformers.
- Establish a process to manage and update equipment specification documents electronically, including maintaining version history and managing editing rights.
- Utilize computers and specialized software to evaluate alternative solutions to engineering problems.
- Support other activities involving reliability, planning, distribution design auditing, and storm restoration.

Education:

- Must be pursuing an Engineering, Mathematics or other technical degree at a 4 year accredited school.
- Must have a 2.5 GPA or higher at the end of the past semester.
- All applicants must be enrolled/registered as a full- time student for the current academic year at an accredited 4-year or 2-year college or university.
- If currently enrolled in a 2-year college program, students must be pursuing a transfer degree such as an Associate of Arts (AA), Associate of Science (AS), and Associate of Arts and Sciences (AA&S). These transfer programs are designed for students who plan to transfer to a 4-year college or university to complete a baccalaureate degree program.
- If you are enrolled/registered in an accredited 2-year transfer degree program, please provide a detailed explanation of your intentions to transfer to a 4-year Baccalaureate program in your cover letter to include the following:
    - When you intend to transfer: year/semester
    - Which Bachelor's degree program and College/University do you intend on pursuing

Knowledge, Skills, & Abilities:
Qualified candidates will have the following knowledge, skills, and abilities:

- High level of technical aptitude; analytical problem solving skills; organizational skills; prior experience with Microsoft based computer applications; team player
