Great-Circle Technologies (GCT), located in Chantilly, VA is seeking talented and motivated students for our summer internship program. Interns will work 35-40 hours per week on a variety of cutting edge projects including:

- Programming with Python, Java, Javascript, and others
- Designing virtual reality, mobile, and social media applications
- Analyzing and managing Big Data using SAS, Hadoop, Spark, MapReduce, ZoomData, and other packages

Each intern will return to school having learned something new!

APPLY BY MARCH 10
