Middleburg Academy
Computer Science Teacher

Middleburg Academy seeks an enthusiastic computer science teacher to advance the School’s STEAM program. Located on 90-acres 40 miles west of Washington D.C., Middleburg Academy is promoting a STEAM program in concert with Project Lead the Way. PLTW is a Science, Technology, Engineering, and Mathematics program that exposes students to hands-on activities, projects, and problem-based learning for real world application. PLTW is a national nonprofit organization that partners with elementary, middle, and high schools to implement a curriculum that promotes math and science achievement. Preference will be given to applicants with a computer science degree. Knowledge of programming or work experience will be considered. A four-year degree is required for the position and a willingness to become certified in the national PLTW curriculum during the summer of 2017.

Qualifications:
A passion for working with students in a positive and uplifting manner.
A true life-long learner who is committed to the independent school experience in thought, word, and deed.
Master’s Degree in science, technology, engineering, or math.
Outstanding communication skills.
