NTT DATA is currently interviewing interns for summer of 2018. Candidates must currently be enrolled in college and be majoring in Computer Science (or STEM related field) with an interest in building a career with a top 10 global IT service provider.

Undergraduates pursuing a Computer Science or STEM degree and taking courses/or have interest in the following should apply:

- Full stack development (with modern stacks like LAMP, MEAN etc.)
- Object Oriented design and development (Java, .NET, Other Open Source)
- Responsive web frontend development skills (HTLM5, CSS3, JavaScript, jQuery, sencha touch, Angular js, NodeJS, json etc)
- Data science and analytics (Hadoop, Spark, Storm, Mongo DBetc)
- User Experience Design
- hands on experience with or interest in Ethereum, Hyper Ledger, DAPP, Solidity or other Blockchain capabilities

Ideal candidates would have:

- Strong analytical abilities to dissect problems and come up with solutions
- Exposure and desire to learn the tools and technology related to the area of their interest
- The internship will be held at NTT DATA office in McLean, VA for the summer and would be a standard 40-hour work week.

Basic Qualifications:

- Must currently be enrolled in college and be majoring in Computer Science OR Science, Technology, Engineering or Mathematics (STEM) fields of study
- Must be a US Citizen
