Tenure-Track Position Available: Assistant Professor of Computer Science

The Department of Mathematics, Computer Science, and Physics will be seeking applications for a tenure-track Assistant Professor position in Computer Science starting August, 2018. A Ph.D. in Computer Science or a related area is required. The successful candidate(s) must have a strong interest in teaching a wide range of undergraduate computer science courses in a liberal arts setting. Evidence of potential for highly effective classroom teaching is required. Candidates should also demonstrate their future commitment to research (their own scholarly focus as well as potential projects for undergraduates) and publication.

Some Highlights about Roanoke College

- A Phi Beta Kappa institution.
- A residential, undergraduate liberal-arts institution.
- Houses an Upsilon Pi Epsilon chapter.
- Listed by the Princeton Review, every year since 2012, as one of the nation’s best schools for a major in computer science.
- Support available for faculty for research-related expenses, including stipends and travel.
- College-wide emphasis on undergraduate student research, with a particularly strong program in computer science.
- Located in the beautiful Roanoke Valley of Virginia.

For more information on the department and its curriculum see the computer science program web site at: http://cs.roanoke.edu/Program/ or contact the coordinator of the computer science program, Dr. Anil Shende (shende@roanoke.edu), or the chair of the Mathematics, Computer Science, and Physics Department, Dr. David Taylor (taylor@roanoke.edu).
