

LAUREATE
EDUCATION INC®

Software Development, Internships (Mobile Applications)

JavaScript, Blackberry, Java/Android or Java Programming

Laureate Education, Inc. is currently looking for dynamic Interns to join our team. The intern will work primarily with the Information Technology group on special projects and assignment related to the departmental objectives. Our company is growing rapidly and can provide you with the hands on experience and knowledge to put you on the fast track after graduation. This paid internship will provide experience in state of the art, continuous integration software development using modern tools and techniques.

ESSENTIAL DUTIES AND RESPONSIBILITIES:

- Intern will be responsible for basic Java programming, which includes writing and validating software under development
- Support a broad range of other assignments with responsibility for recommending and implementing change in methods and procedures in addition to advising management on appropriate next steps.
- May perform other duties and responsibilities that management may deem necessary from time to time.

Experience:

- Applicants must have completed their junior year of their undergraduate studies
- Applicants must have a working knowledge of Java/Android programming knowledge
- Excellent communication and presentation skills, both oral and written
- Strong planning and organization skills
- Must be able to prioritize tasks and manage multiple projects in a fast paced environment with minimal supervision
- Ability to work independently as well as in a team environment and communicate with all levels of management
- Strong computer skills with extensive knowledge of MS Office tools and project management experience preferred
