FLEISHMAN
INTERNATIONAL COMMUNICATIONS
HILLARD

Drupal Web Developer
Fleishman-Hillard Digital, Washington D.C.

Fleishman-Hillard Digital, the digital media arm of a world-class global communications firm, is seeking a bold and talented **Drupal Web Developer** to join a dynamic, full-service team of 50+ creative and digital professionals in Washington D.C.

Working within the ever-changing world of Marketing and Communications, Fleishman-Hillard Digital helps clients stay on the cutting edge of digital media to communicate with target audiences, communities and markets. The team conceives, designs and builds international award-winning websites, mobile apps, games, motion graphics, database systems, blogs, social media programs, and advertising campaigns.

Fleishman-Hillard Digital's clients include FORTUNE 500 corporations, consumer brands, major government agencies and trade associations. Check out the great work we're doing: <http://fhdigital.net/demo/>.

Our ideal match:

Technical skills:

- 3-6 years of total experience.
- An undergraduate degree in computer science, mathematics, or other quantitative/business field preferred.
- Experience with Drupal, HTML, CSS, Javascript and PHP required.
- Additional experience with any of the following, a plus: LAMP stack (Linux, Apache, MySQL and PHP), UNIX, Shell scripting, Wordpress, Joomla, SCRUM, SVN.

Personal skills:

- Ability to juggle multiple projects at once.
- Must be a highly motivated self-starter who can easily work independently or in a team environment.
- Experience working in a marketing, creative, web design, advertising or PR agency preferred; alternatively a portfolio of public web sites developed in Drupal is highly desirable.

To apply, please email your resume to brian.batchelder@fleishman.com
