

**Harmonia Holdings Group** ([www.harmonia.com](http://www.harmonia.com)) is a fast growing technology company building game changing technologies for the private and public sector. Harmonia transforms research into commercial products and offers an exciting environment of working with state of the art technologies. Harmonia is located in the VT Corporate Research Center in Blacksburg, VA and Tyson's Corner in McLean, VA. Winner of several awards such as the Tibbett's Award (2007), Smart CEO Award (2008), Smart 100 Award (2009); Harmonia ranks on the Inc 5000's list of fastest growing companies. Established in 1999, Harmonia has an impressive list of contracts with Dept. of Defense, Dept. of Energy, Dept. of Homeland Security, Dept. of Transportation and National Institutes of Health, to name a few.

Harmonia offers an excellent benefits package including medical insurance, dental, disability insurance, life insurance and 401K with matching.

Harmonia seeks candidates to fill openings for full time C++ developer positions. The positions require the following:

- Excellent C++ programming skills
- Experience programming in Linux or Unix systems required
- Desirable but not required is familiarity with the Boost C++ database library

This position is more than coding including working on designs, documentation, attend review meetings, and code some of the time.

Note: a college degree is desirable but *a degree is not required for this position* – what is more important than a degree is someone who has practical, hands-on knowledge of C++ and Linux.

Position is in Fairfax, Virginia for a project related to an environment in which naval vessels operate. Individual must be US Citizens and able to qualify for a security clearance.

Please send resume or contact Mr. Michael Bame [mbame@harmonia.com](mailto:mbame@harmonia.com) at 540-951-5900 x202.
