

## **System Administrator**

### **Description**

The Henry M. Jackson Foundation (HJF) is looking for a System Administrator to join the U.S. Army Medical Research and Materiel Command's Biotechnology High Performance Computing Software Applications Institute (BHS AI) [[www.BHS AI.org](http://www.BHS AI.org)]. HJF provides scientific, technical, and programmatic support services to the BHS AI.

### **Requirements**

The applicant should have a Bachelors degree in computer science or equivalent experience. The applicant should also have at least two years of hands on experience in system administration. Required skills include:

- Excellent knowledge of Linux and/or BSD system administration (desktop and server)
- Good knowledge of computer networks and common services
- Familiarity with (or willingness to learn) Windows Server and Active Directory administration
- Experience with building computers from parts
- Willingness to help users with general IT support requests

Additional skills desired but not mandatory:

- Ability to write shell and Windows batch scripts to automate tasks
- Familiarity with installing and maintaining database servers on Linux
- Understanding of computer security, authentication, and encryption principles
- Disaster recovery planning and knowledge of Bacula or Retrospect backup software
- Experience with configuring network switches and firewalls

Foreign nationals (OPT, H1B, permanent residents) and U.S. citizens are welcome to apply.

Please apply on-line at [www.hjf.org/careers](http://www.hjf.org/careers) Click "Advanced Search" and enter job number **206171** in the Job Opening ID box. OR fax your resume to 240-314-7334. Please specify title and job number on fax.

HJF administers innovative medical research, supports education and training, and facilitates collaborations between the military and private medical communities. We provide comprehensive management and scientific services for more than 1,000 basic, clinical and applied research projects conducted around the globe. We also support continuing medical education programs for more than 160 military medical research and treatment facilities, and military medical organizations.
