

Technology Solutions Analyst

Today, increasing globalization, rapidly evolving technology and a changing generation of workers and customers are challenging business assumptions. These are the forces that are transforming the way organizations compete and innovate. We call this the Future of Work - and it is no longer in the Future.

For progressive computer science and information technology-oriented graduates, this is an opportunity to join a rapidly growing and global organization with a passion for building stronger businesses for our clients. Cognizant Technology Solutions (www.cognizant.com, NASDAQ: CTSI) is a member of the S&P-500, Nasdaq-100, and was recently ranked as the #1 Fastest Growing "All Star" by Fortune Magazine. Cognizant leverages a highly flexible business model, a seamless global delivery network and deep domain expertise to deliver to a long list of world-class companies that are leaders in their own space.

See how joining Cognizant and embracing the Future of Work can help you drive your career forward.

Position Overview

By joining as a Technology Solutions Analyst, you will become part of our US-based Applications Services team, which provides a full range of IT services to our US Clients across multiple industry sectors, from custom application development, testing and maintenance through package deployment, upgrades, and application consulting.

You will be assigned to a client engagement in the US where you will work alongside other experienced Cognizant associates delivering technology solutions. We work with the best of the best – a representative client list is available on our website. Your first assignment could involve any combination of the following - application development, maintenance, testing, business requirements gathering and analysis or project management support. Throughout your first two years at Cognizant, we will closely monitor your progress and offer coaching, training and support to help you achieve your long-term career goals at Cognizant. This program has very high visibility with our Executive team and provides tremendous opportunity for leadership development.

Prior to starting your client engagement, you will attend a 4 week New Hire Training Program, where you will learn about our history, vision and culture, our global delivery model including our proprietary Two-in-the-Box model, and our processes, tools and methodologies (including the Cognizant 2.0 global collaboration & project management tool). You will receive training on client relationship management skills as well as technical training on .Net, Java or Application Testing.

Qualifications

- Bachelors Degree or Equivalent. Our preferred majors are Computer Science, Management Information Systems, Electrical, Computer, or Industrial Engineering, or other related majors that provide foundational knowledge in software development and testing.
- Demonstrated ability to program in at least one language or framework, such as C, C++, Java, .NET, Perl, etc.
- Strong problem solving and analytical skills

- Strong interpersonal and communication skills
- Ability to work collaboratively with global project teams

Applicants must reside near or be willing to relocate to one of the major geographic areas where we have significant customer accounts. These include the following Metropolitan areas: New York City, Boston, Hartford, Silicon Valley, Los Angeles, Phoenix, Dallas, Chicago, Detroit, Minneapolis/St. Paul, Richmond, Atlanta, Charlotte, plus many others.

Applicants must be authorized to work in the US without sponsorship or required authorization from Cognizant.

Cognizant is an equal opportunity employer provider and committed to creating a diverse environment. Cognizant considers all applicants without regard to race, creed, color, national origin, ancestry, age, marital and family status, disabilities, sexual orientation or preference, veteran status or any other classification protected by state, federal or local law.
