

Java Developer

Our client in Rockville, MD is looking for developers with 0-3 years of experience with a degree in Computer Science from a high caliber University to join their elite team of Java Developers. This is a fast-paced, agile environment with 2-3 week sprint cycles, a matrix structure composed small teams doing advanced Object Oriented Java Development. You will be given exposure to an array of open source technologies, frameworks such as Spring and Hibernate, Google Web Toolkit, and MVC to name a few. Some managers of this team are members of MENSA and will provide excellent mentorship to new developers.

An ideal candidate will possess excellent Object Oriented Java Programming skills, an excellent knowledge of SQL and XML, be great with developing algorithms, possess great problem solving skills, and have an overall desire to learn new technologies and hit the ground running.
