

CONNECTING THE WORLD THROUGH GAMES

We are a fast-paced technology company connecting millions of friends through games every day.

At Zynga, you will find smart, creative people who are passionate about taking on new challenges. Whether you are a developer, designer, or a customer service manager, there's an opportunity here for you to level up and be your own CEO.

As a new graduate software engineer or product manager, you'll work on one of our wildly successful social games to develop and launch new features as you continue to help Zynga become the social gaming destination on the internet. If you are currently in your final year of a bachelors, masters, or PhD program and have a passion for social gaming, you're eligible to apply for one of our New Grad opportunities.

Interested?

We thought you might be. To apply, do any of the following:

- Find the online posting in your school's job bank and submit your resume
- Contact your career center and they can put you in touch with a Zynga representative
- Apply online anytime at our website, www.zynga.com/students
