

# Assistant Web Developer - Work Study or Wage

Organization Name: Virginia Tech Human Resources

Wage/Salary: \$10-11/hr

## **Job Description**

Assist with the creation, maintenance and support of the Human Resources website and supplemental websites including support, testing and troubleshooting. As experience allows, assist with development and programming of Human Resources web applications.

## **Required Qualifications**

Demonstrated experience in HTML and CSS for design and layout with excellent attention to detail. Must possess great communication and interpersonal skills for working effectively with colleagues.

## **Preferred Qualifications**

Preference for experience with ASP.NET or other server-side programming skills, content management systems, JavaScript, and/or graphic design.
