Entry-level Environmental/IT Analyst
Chantilly Office

ERG is a multidisciplinary environmental consulting firm offering a broad range of professional services. ERG is seeking a bright, highly motivated scientist or engineer with strong teamwork, communication, and time-management skills for an opening as an Entry-level Environmental Scientist/IT Analyst. Primary responsibilities include quality assurance and testing, site maintenance and content uploads, and writing software design and testing documentation for web applications with scientific purposes. Knowledge of data management and the software development life cycle a plus. The ideal candidate will collaborate with a team and work independently on concurrent tasks while meeting project deadlines.

REQUIREMENTS: Candidates should have experience or a strong interest in website design, testing, documentation, and/or programming. Skills with HTML, CSS, Javascript, PHP, SQL, Drupal, Selenium IDE, and SoapUI a plus. Qualified candidates will have a BS or MS degree in environmental science or engineering, chemistry, or biology, and 0 to 2 years of experience. Minimum 3.0 GPA required. College transcripts must be submitted along with resume.

How to Apply:
You may submit your application via an email to resumes-er@erg.com and include Attn: CHAMC1218152B11 with the subject line of your email. You may also mail or fax the appropriate documents to the Attention of CHAMC1218152B11. Click here for mail and fax information. No phone calls please.

Please take a moment and fill out the following Voluntary Self-Identification forms and send them along with your resume (forms must be downloaded, completed, and saved prior to sending): Disability, Race and Veteran.
