Internship

Intern hired for this position will be responsible for assisting with completing the overall sharepoint site setup for Enterprise Reporting Services team. This project has been initiated to bring together the key information and documentation into a central location with the creation of the data warehouse sharepoint site. In addition, the Intern will be utilized to help with creating some key matrix documents to better help with understanding the various business lines, data within the data warehouse. The position will also assist with the build-up of the data warehouse Batch job portal that will enable insights for various users of warehouse to be able to get an insight into the data recentness within the warehouse on daily basis for effective communication and reporting. Responsibilities of this position may include meeting co-ordination across groups for informational gathering, documentation, reporting and creation of visual presentations. Intern will also be introduced to the group’s methodology and processes to enable application of that knowledge into the work assigned. This intern will start in June, (10 weeks internship), hourly rate $18-$22.

Preferred: Studying towards a Computer Science Degree or Similar IT focused
