Various Positions Available

Our team has a number of positions currently open including developer positions at all levels, testers, field engineers, trainers, a requirements manager, and a deputy program manager. This link provides job descriptions and instructions for applying for all of these positions: http://jobs.leidos.com/ListJobs/All/Search/location/newport-news/state/va/country/us/. Some travel is required for each of the posted positions, and teleworking may be possible depending on the candidate. Some positions do require a Secret security clearance, though all positions require that the candidate be able to obtain a Top Secret/SCI clearance. Persons interested in applying are welcome to contact me at the numbers listed in my signature to hear more about our products/team.

Finally, some information about Leidos: Leidos is a global science and technology solutions leader working to solve the world’s toughest challenges in the defense, intelligence, homeland security, civil, and health markets. The company’s 33,000 employees support vital missions for government and commercial customers. Headquartered in Reston, Virginia, Leidos reported pro forma annual revenues of approximately $10 billion for the fiscal year ended January 1, 2016 after giving effect to the recently completed combination of Leidos with Lockheed Martin’s Information Systems & Global Solutions business (IS&GS). For more information, visit www.Leidos.com. The company’s diverse employees support vital missions for government and commercial customers. Qualified women, minorities, individuals with disabilities and protected veterans are encouraged to apply. Leidos is an Equal Opportunity Employer.
