Paid Undergraduate Graphic Design Internship with VT Information Technology – Network Infrastructure and Services (User Experience Office)*

As an intern, you will:

• Create graphics and design layouts for websites and web applications

• Gain an understanding of our brand strategy and mission and interpret in terms of line, color, and typography

• Incorporate UI/UX best practices in website design and layout, and adapt designs for mobile formats

• Be mentored by user experience professionals, seasoned developers, and web specialists

• Participate in a test driven, Agile approach to deliver quality software relatively quickly using HTML, CSS and JavaScript

• Earn $10/hour (starting) while growing a resume over several years that is certain to be of interest to employers when you graduate

Intern requirements:

• Firm grasp of visual design principles
• Experience with Adobe Creative Suite software or software mockup tools (e.g., Sketch, Principle, Axure, Omnigraffle, Balsamiq)
• Working knowledge of HTML, CSS and interest in frameworks (e.g., Bootstrap, Material design)
• Rising sophomores or juniors in Graphic Design, Computer Science or a related field
• Ability to work part-time in Spring 2016 and Fall 2016 semesters with opportunities to work winter and summer breaks

Interested?

• Send resume and portfolio to Kim Gausepohl at ux.office@nis.vt.edu

*Network Infrastructure and Services, part of Virginia Tech’s Information Technology organization, contributes to the overall mission of the university by providing and managing Virginia Tech’s I.T. infrastructure and services. The UX office provides user experience consulting for university projects. For more information about our organization, refer to our website http://www.nis.vt.edu/.
