Web Developer

Job Type: Full-time
Job Area: Software Development

Work City: Blacksburg, VA

Job Description

The MyVFit™ software is an essential part of VirtualU and includes user interfaces and applications associated with the VFit™ Scanner. You will be responsible for maintaining and enhancing VirtualU’s front end and back end web development using JavaScript, PHP, HTML, and CSS. The role involves a mix of feature development as well as understanding the integration, user flows, and interaction between MyVFit™ software and VFit™ hardware.

Requirements

- Bachelor’s Degree in CS or related field of study
- At least six months of experience in:
  - HTML
  - CSS
  - PHP/SQL
  - JavaScript/jQuery

Preferred

- Basic knowledge in:
  - Objective C
  - Java
  - Android/iOS development experience
  - Object Oriented Coding
  - API development and management

VirtualU is committed to creating a diverse environment and is proud to be an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, gender, gender identity or expression, sexual orientation, national origin, genetics, disability, age, or veteran status. VirtualU is also committed to compliance with all fair employment practices regarding citizenship and immigration status.
