Audi Future of Mobility Challenge
Students engineering solutions for tomorrow

Audi is seeking America’s brightest young minds to help shape the future of transportation and urban living.

How it works

Twelve students will be chosen for a 6-week workshop where they will compete in groups of two at Audi headquarters in Ingolstadt, Germany during the summer of 2014.

Two winning participants will be given the coveted chance to bring their ideas to life in an internship with the Audi Technical Development team in 2015.

This internship is for U.S. citizens 18 years of age or older who are at a university or college and studying engineering, design, computer science, or urban planning.

Important Dates:

- Sept. 30, 2013: Submissions open
- Nov. 15, 2013: Submissions close
- Jan. 7, 2014: Winners announced
